NDCC UPDATE

Consolidated Report on the Effects of Flashfloods in Cagayan de Oro City and Gingoog City in Misamis Oriental and Iligan City in Lanao del Norte as a Result of Tail-end of Cold Front and Low Pressure Area

Releasing officer:

GLENN J RABONZA
Administrator, OCD and
Executive Officer, NDCC

DATE : 6 January 2009

Reference: OCD Regional Center X

I. Situation Overview

- The continuous heavy rains brought about by the diffused tail-end of cold front and the low pressure area (LPA) in the Northern Mindanao triggered continuous heavy rains which lasted for 4 days, resulting the concentration of volumes of water at Picutin River boundary to Lanao del Sur and caused the overflowing of Cagayan de Oro River
- Likewise, accumulation of water in the uplands of Iligan and Gingoog cities eventually resulted to flashfloods in areas along the river systems from 3:00 to 6:30 AM, 03 January 2009. The flashflood was aggravated by high tide at early dawn of January 3 which intensified the flooding in 4 coastal barangays: 2 in Cagayan de Oro City and two (2) in Gingoog City

II. Effects

A. Casualties

- One (1) person, identified as Mr. Roganden B. Andig, 12 years old from Brgy 24, Gingoog City was reported dead due to drowning while two (2) other persons, Mr. Angel Vencio, 6 years old and Ms. Christine Dapusala Y. Edruno, 5 years old both from Cala-cala, Macasandig, Cagayan de Oro were reported missing

B. Affected Areas and Population

- **A total of 9,419 families / 43,851 persons** were affected in **30 barangays** of Cagayan de Oro City and Gingoog City in Misamis Oriental and Iligan City in Lanao del Norte broken down as follows:
